Profile Strength

76.5

/ 100

Good

Areas for Improvement

- The current headline is an inspirational quote and does not communicate your professional value or core competencies (like Big Data or DevOps) to search algorithms.
- The experience section is descriptive rather than achievement-focused, missing quantifiable results and specific project impacts from your HOD tenure.

Sometimes Attitude Plays
More Important role than
Knowledge
LinkedIn Profile Audit

Actionable Recommendations

- Replace the current headline immediately with a professional title that includes your role, academic credentials, and 2-3 high-value keywords (e.g., HOD | PhD | Big Data Analytics | DevOps Leadership).
- Flesh out your job descriptions by using action verbs and metrics to describe successful initiatives, such as curriculum development or research outcomes.

Action Plan

- Draft a new, keyword-optimized headline (under 120 characters).
- Add 3-5 bullet points of quantifiable accomplishments to your current HOD position description.

Strengths

- You possess an exceptional academic foundation, including a PhD in Information Technology, which provides deep subject matter expertise.
- Your profile showcases extensive and highly relevant technical certifications (e.g., Cisco, Red Hat, Blockchain, Big Data), highlighting continuous learning.
- You demonstrate significant stability and leadership, holding the Head of Department role for over a decade.
